

Retirement Plan Fee Schedules

Empower Retirement acts as the record keeper for the City of Jacksonville Retirement Plans. Read on to learn more about the fees and expenses associated with the day-to-day management of your retirement plans and how they are deducted from your account.

Whether you are considering enrolling in one of the plans listed below or moving your assets to another plan, take time to compare the fees listed below to your other retirement options. And remember, if you find that City of Jacksonville Retirement Plan fees and expenses are lower than your other retirement options, you can roll eligible accounts (Roth IRAs not applicable at this time) to your City of Jacksonville 457(b) Deferred Compensation Plan.

You are encouraged to discuss rolling money from one account to another with your financial advisor/planner and to consider any potential fees and/or limitations of available investment options.

Carefully consider the investment option's objectives, risks, fees and expenses. Contact us for a prospectus, summary prospectus or disclosure document containing this information. Read each carefully before investing.

This is not a complete comparison. Other fees and charges may apply.

1 All investment fees are current as of January 1, 2019.

2 Each investment option has its own operating expenses. Funds may impose redemption fees and/or transfer restrictions if assets are held for less than the published holding period. For more information, see the fund's prospectus and/or disclosure documents.

3 Fees for SDB options are dependent on the mutual funds and other securities you select. For additional information, contact TD Ameritrade at 866-766-4015.

4 There is no direct fee for each individual contract or product. General Account crediting rates are net of cost of capital and expenses covered by the fund and guarantee provisions. Essentially, the nature of the product is such that Great-West guarantees a crediting rate in advance and attempts to obtain a yield that exceeds it. The "spread" between the yield obtained and the crediting rate guaranteed is retained by Great-West to pay the expenses associated with the General Account.

5 In addition to plan withdrawal fees, withdrawals may also be subject to ordinary income tax. Withdrawals made prior to you reaching age 59½ may also incur a 10% early withdrawal penalty. The 10% early withdrawal penalty does not apply to 457 plan withdrawals.
